

Xitech's 4" Skimmers

Economy Skimmer Light LNAPLs

This 4" **Smart Skimmer** can remove all light LNAPLs such as: gasoline, diesel, #2 fuel oil, home heating oil, jet fuel, JP4, JP5, JP8, and aviation gas, down to a sheen. Our skimmer can easily fit into any 4" well or larger and uses a dual entry hydrophobic filter. With a pumping rate up to 25 GPH it is operational up to 200 feet deep. The maximum air requirements are .5 CFM @ 125 PSIG, and air quality requirements are clean dry air.

U.S. Patent # 5,326,458

Model ADJ1000

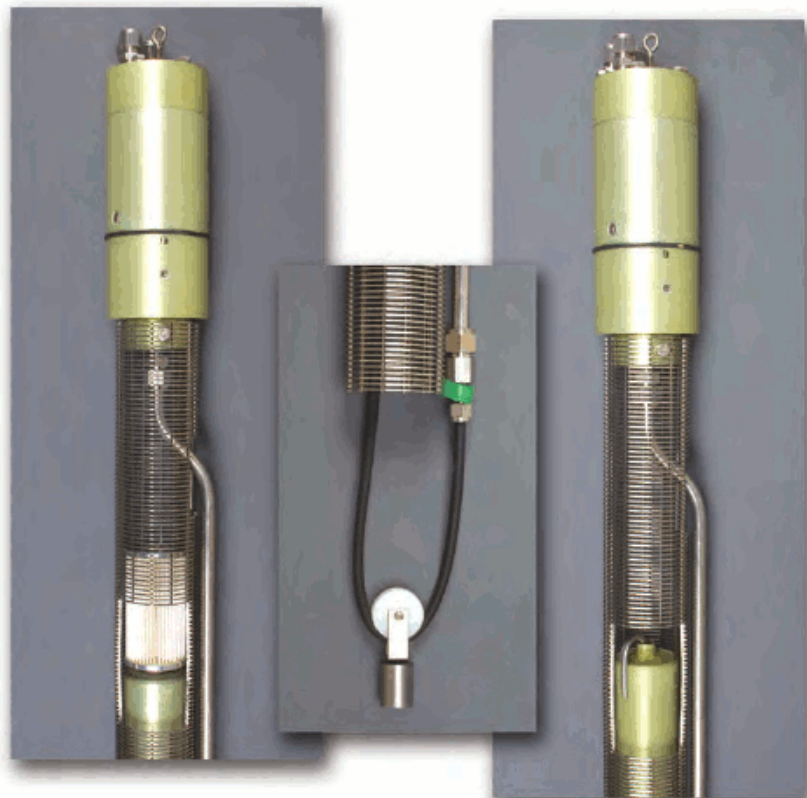

Skimmer float travel: 30 inches
Size: 3.5" diameter x 48 inches long
Weight: 11 pounds

Model ADJ1005 (extended travel)

Skimmer float travel: 5 feet
Size: 3.5" diameter x 84 inches long
Weight: 15 pounds

High Performance Skimmer Light LNAPLs

Xitech's all metal **High Performance 4" Skimmer** was designed to be chemically resistant to all LNAPLs, operate in a 212 degree steam environment, and remove: gasoline, diesel, #2 fuel oil, home heating oil, jet fuel, JP4, JP5, JP8, and aviation gas, down to a sheen. The skimmer can easily fit into any 4" well or larger, has a pumping rate up to 25 GPH, can operate up to 200 feet deep, and uses a dual entry hydrophobic filter. The maximum air requirements are .5 CFM @ 125 PSIG and air quality requirements are clean dry air.

U.S. Patent # 5,326,458

Model ADJ1010L

Skimmer float travel: 24 inches
Size: 3.5" diameter x 48 inches long
Weight: 17 pounds

Model ADJ1015L (extended travel)

Skimmer float travel: 5 feet
Size: 3.5" diameter x 84 inches long
Weight: 21 pounds

High Performance Skimmer Heavy LNAPLs

We designed our all metal **High Performance 4" Skimmer** to be chemically resistant to all LNAPLs and operate in a 212 degree steam environment. It removes very heavy oils, such as: crude oil, #6 fuel oil, gear oil, PCB oil, bunker sea oil, and creosote. The skimmer can easily fit into any 4" well or larger, has a pumping rate up to 25 GPH, can operate up to 200 feet deep, and has a high buoyancy floating product intake. The maximum air requirements are .5 CFM @ 125 PSIG, and the air quality requirements are clean dry air.

U.S. Patent # 5,326,458

Model ADJ1010H

Skimmer float travel: 24 inches
Size: 3.5" diameter x 48 inches long
Weight: 17 pounds

Model ADJ1015H (extended travel)

Skimmer float travel: 5 feet
Size: 3.5" diameter x 84 inches long
Weight: 21 pounds
